
MARKING PLATES WITH BARCODES AND QR CODES

➤ **Metallofoto® identification plates.** The plates made using the technology of Metalfoto® have a particularly high stability under various extreme conditions. They can be used as identification marks, such as techniques for marking weapons with QR, bar codes or inscriptions, and elsewhere. We use only high-quality and certified materials in production. The product warranty is the appropriate material specification and manufacturing technology use...

➤ We manufacture our products exclusively with top-quality certified materials. The warranty corresponds to the material specification and employed production technologies. This way we can ensure a high-value result.

Quality is the core principle of our work, pushing continued development and improvement of our company. We regularly inspect all products to guarantee a result that meets the clients requirements.
