
MILITARY FUEL POURING SPOUTS - FOR DIESEL AND PETROL

➤ VALPRO Ltd. has developed pouring spout specifically for the military sector that facilitates refueling of any military vehicle.

➤ VALPRO Ltd. has developed pouring spout specifically for the military sector that facilitates refueling of any military vehicle.

- Breathing channel will make pouring of the petrol smoother and faster. 20L fuel can can be emptied in approximately 70 seconds;
- Internal filter will protect engine from dirt and foreign bodies while pouring;
- Flexible tube made of tin plated metal will ensure long life expectancy (can be painted according to technical specification);
- Pouring spouts are available with two different diameters of end pipe to prevent misfuelling: 25 mm - for vehicles equipped with diesel fuel tanks; 20 mm - for vehicles equipped with petrol fuel tanks;
- Pouring spout automatically stops when the tank is full.
