
HESCO MIL DEFENSIVE BARRIER

➤ **HESCO BASTIONS** - one of the most well-known brands in the world, which manufactures protective structures. HESCO BASTIONS have become the most popular means used effectively in military, humanitarian and civilian operations to protect people, infrastructure and the environment from a wide range of natural or man-made threats.

➤ **HESCO MIL**

The standard MIL unit is the original HESCO Concertainer™ product and has become renowned the world over as the ultimate force-protection barrier system

Attacks from terrorists, insurgents, and other adversaries are a constant reality to both military and civilian personnel, in dangerous spots around the globe. Defending against these ever-present threats demands protection that is secure, reliable, and readily available.

Whether used as a preventative barrier or to define boundaries, MIL units have been employed to safeguard personnel, vehicles, equipment, facilities and other critical assets in a variety of military, peacekeeping, humanitarian and civilian operations.

Once erected, MIL units can be filled using almost any locally available material, and the range of sizes is extensive, as shown on the right.

Hesco's unrivaled capability in design, technical innovation...
