
SORHEA INFRARED BEAM BARRIERS

➤ Sorhea infrared beam barriers

- These infrared beam barriers use beam bundles to create invisible barriers. The systems respond when a beam is interrupted by an object or person. They are ideal for locations with visible perimeter fencing, providing accurate motion detection both day and night.

Advantages:

High Reliability and Precision: Ensures accurate detection of intrusions.

Combination of Different Technologies: Leverages various technologies for enhanced security.

Operation Under Any Conditions: Functions effectively in various environmental conditions.

Easy Integration: Can be seamlessly integrated with existing security systems.

Adaptability and Scalability: Easily customized and scaled according to needs.

Minimal Maintenance: Requires low upkeep for continuous operation.

Applications:

Critical Infrastructure: Protects essential facilities such as power plants and water treatment plants.

Industrial and Commercial Properties: Secures factories, warehouse...
